DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to a reactor having a cleaning electrode, classified in class 204, subclass 222.
 - II. Claims 13-20, drawn to a reactor having a reactor head assembly, a reactor base assembly and a gap adjustment assembly, classified in class 204, subclass 198.
 - III. Claims 21-25, drawn to a reactor having a control circuit for sensing the workpiece position, classified in class 204, subclass 228.8.

The inventions are distinct, each from the other because of the following reasons:

2. The reactors of Groups I, II and III are distinct from each other because they can be used to perform different processes. The reactor of Group I has a cleaning electrode which is capable of performing a cleaning cycle. The reactor of Group II can be adjusted to control the spacing between the electrode surface and the surface of the workpiece. The reactor of Group III can be used in a process that controls the electrochemical process by the relative positions of the electrodes and the workpiece.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Jeffrey Sakoi on April 17, 2003, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

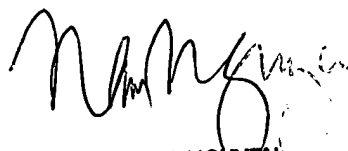

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian L. Mutschler whose telephone number is (703) 305-0180. The examiner can normally be reached on Monday-Friday from 8:00am to 4:30pm.
